

H1N1 (Swine Flu)

BE PREPARED

This school year, be prepared with our full line of EPA registered products to combat H1N1 (Swine Flu) and other Influenza viruses.

Flu Facts:

- Approximately 1/5 of the U.S. population attends or works in schools. (U.S. Dept of Ed, 1999)
- Some viruses and bacteria can live from 20 minutes up to 2 hours or more on surfaces, such as cafeteria tables, doorknobs, and desks. (Ansari, 1988; Scott and Bloomfield, 1989)
- Nearly 22 million school days are lost annually due to the common cold alone. (CDC, 1996)
- Addressing the spread of germs in schools is essential to the health of our youth, our schools and our nation.
- A branch chief from the US EPA OPP Antimicrobials Division, Ms. Michelle Wingfield, is recommending the use of any EPA registered product with the label claim against Influenza A. Products with an Influnza A label can be used against the current H1N1 strain.

Applause Q693, Hand Sanitizer – A unique blend of emollients and ethyl alcohol that works to instantly sanitize hands without water or towels. It leaves hands sanitized, smooth and conditioned without an antiseptic smell. Will not dry out skin. Helps prevent bacterial transfer and reduces hospital acquired infections. Dries in 15 seconds leaving hands with a fresh citrus fragrance. (24 x 4 oz)

Express Wipes Q645, Hand Sanitizer – Premoistened disposable wipes formulated to kill 99.9% of bacteria while cleaning skin. Perfect in areas where water and soap are not available. Emollients leave skin soft and moisturized. Non-abrasive fabric is gentle on skin. No mess, no fuss. Convenient one-wipe at a time dispensing system reduces waste.

Express Wipes Q644, Hard Surface Disinfectants –

A non-woven disposable cloth containing a stable, low pH formulated disinfectant and deodorant for use on hard, non-porous surfaces where control of cross-contamination is required. Can be used anywhere on nearly any hard, non-porous surface to disinfect and deodorize. Safely decreases chances of cross-contamination. Dispenses one at a time so you can use only what you need for less waste.

Germ-B-Gone GGCI, Total Release Aerosol Fogger – An EPA registered hospital antimicrobial agent and two-way deodorizer for use on pre-cleaned hard, nonporous surfaces. Use in industrial, institutional, commercial, medical and residential facilities, equipment and vehicles. Sanitizes fabric and leather, shoes, mats, and equipment. Bactericidal (E.coli, Pseudomonas aeruginosa, Salmonella enterica, MRSA and more). Virucidal (HIV-1, Herpes Simplex 1 and 2, Influenza A, and more). Fungicidal & Tuberculocidal. Controls growth of microorganisms that cause putrefactive odors. One can treats 6,000 cubic feet of unobstructed space.

Phenomenal Hospital Disinfectant Q310, Q311, Q312, Aerosol – A hospital grade disinfectant and deodorant. Contains a blend of powerful phenolic germicides. Controls mildew. Deodorizes area where foul odors are present. Sanitizes and disinfects telephones, toilet seats, urinals, sinks, showers, refuse cans and office equipment. For use in medical, dental and health care facilities; including nursing homes and veterinary clinics. Recommended for prisons, police and fire departments, hotels/motels, funeral services and crematoriums, dairy farms, physicians, sports and recreational clubs, beauty shops and food processing plants.

Triple Threat TTBI – A superior cleaner with disinfecting and deodorizer qualities. Has special emulsifiers that leave an extra clean finish. Bactericidal, virucidal, fungicidal, and mildewstat. Effective against E. coli, Strep, Shigella, MRSA, Trichophyton, Influenza A, Adenovirus Type 2, HIV-1, HBV, HCV, and others listed on label. For home, hospital, institutional & industrial use. For school, restaurant, food handling and processing areas. Can use as a general or hospital grade disinfectant at 2 and 3 oz per gallon, accordingly.

Minty Fresh – A one-step, phosphate-free, detergent, disinfectant, cleaner and deodorizer. Bactericidal, virucidal, fungicidal and mildewstat, Effective against Influenza A, HBV, HCV, Adenovirus Type 2, Herpes Simplex 1, HIV 1, SARS, E. coli, PRD 10, Salmonella, Strep, Staph, Trichophyton, and many others listed on label. Apply with mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. 2 oz/gal

Protector PRB – Cleaning, deodorizing and disinfection. Specifically for hospitals, nursing homes, schools, food processing plants and food service establishments where housekeeping is of prime importance in controlling the hazard of cross-contamination. Effective against Salmonella, Staph, E. Coli, Strep, Trichophyton, Influenza A, Herpes Simplex, Adeno Virus Type 5, Vaccinia, HIV-1, and mildew. Deodorizes areas which are generally hard to keep fresh smelling, such as garbage storage areas and toilet bowls. 0.5 oz/ gal.

Encore Q357, Non-Acid Disinfectant Bathroom Cleaner – Disinfectant, cleaner, fungicidal, mildewstat, virucide and deodorizer for use in hospitals, institutions and industrial areas. This quaternary disinfectant contains four strains of ammonium chloride which provides protection and aids in the the reduction of cross-contamination against a broad spectrum of gram positive and gram negative bacteria, HIV-1, Influenza A, Herpes Simplex Type 1 and Type 2 and Vaccinia. RTU

Products available include sprays, wipes and liquid cleaners (quarts, gallons, pails and drums).
